WEEKLY REPUBLICAN-1897. DAILY PUBLIC LEDGER-1899.

MAYSVILLE, KY., FRIDAY, JULY 22, 1904.

ONE COPY-ONE CENT.

A BASEBALL SERMON. He stood within the pitcher's box and figured on his man; He tried to scheme a scheme by which he'd make the fellow fan. He squirmed about a little, as all good pitchers do, Then sent an inshoot o'er the plate; the willing willow flew To meet the sphere, which in its turn went to the outfield fence And scored three men, to the disgust and misery intense Of him who twirled—he was indeed a broken-hearted duck. And yet he didn't blame himself—he laid it onto luck. That pitcher came to bat, at length; he waited for a chance To send that ball to kingdom come, three runners to advance. He watched a slow one creeping o'er the path so often trod— A billion miles below the sky, three feet above the sod— Then made a wild and wicked swing that would have let it land In Chinatown, if he had but connected as he'd planned. Third strike it was—it landed in the catcher's mitt "kerchuck." And yet 'twas not the batter's fault, 'twas just his much blanked luck. Oh, Luck, what shoulders must be yours, to carry all unhelped. The fardels and the faults by tons upon them daily dumped! The world is full of foolish folk who make a listless try To bring about the things they crave, and then sit down and cry. Because the feeble effort didn't bring the thing they sought— A boon for which far better men had toiled and bled and fought. Much blame you get from folks who lack the necessary pluck— Who halt things up egregiously and blame it onto "luck."

The management of the Ripley Fair is making every preparation to have this year's event eclipse all others. They are carefully looking after every detail, and if watchfulness and forethought count the Fair will be a hummer all through. Some of the special attractions are Barne's famous Diving Elks and Trixie, said to be the smartest horse in the world. Then with the usually attractive Floral Hall, the finest stock rings, etc., the Fair can't help but be one of the best in the circuit. August 9th to 12th are the dates, with the 11th set apart as "Kentucky Day." But if Kentuckians, as well as Ohioans, know a good thing when they hear about it they won't miss a single day of the Ripley Fair.

Mr. John W. Porter the undertaker left this morning to take charge of the remains, accompanied by Arthur Whaley, the father, and Spencer Hinton.

MUST ACCEPT BOND

Carter County Will Have to Pay Old Railroad Debt

Federal Judge Cochran of the United States Court at Covington has issued an order compelling the Fiscal Court of Carter County to meet next Saturday and accept the bond of J. W. Peck, as collector of the special tax which was levied by order of the United States Court.

This tax was ordered levied to redeem bonds issued by Carter county forty years ago, the proceeds of which went as a subsidy to get a railroad into the county.

The bonds have never been redeemed, as collectors to collect the special tax would either not be recognized by the county authorities or failed to secure assistance in making the levies.

The Carter Fiscal Court a few weeks ago refused to recognize Millionaire Bradford Shinkle as bondsman for Peck.

It is, undoubtedly, a great hardship on most of the taxpayers of Carter county, and they feel that they are paying for what they never got, all of which is true; but Mason county and the city of Maysville each paid much larger sums 'way back in the '50s for the Maysville and Lexington and the Maysville and Big Sandy Railroad, neither of which they got at that time.

The easiest way out of the matter is to pay out, and as the bondholders are innocent purchasers, they are in no wise to blame.

"There Isn't One Really Good Printer in Five Hundred."

Printers' Ink—the leading journal on publicity of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed and to the point, the first impression is good and your chances of doing business on the strength of it are good. We realize this. We keep abreast of the times. We know what good printing is and produce it. We are pretty careful not to let a bum job get onto our presses. No press in the country can better our printing and we want you to know it. HAVE THE DAVIS PRINTING HOUSE PRINT IT. PUBLIC LEDGER BUILDING.

Mr. Will Rogers is passing around to his friends a novelty in the way of a combination knife. Besides a first-class blade there is a corkscrew and a cutter for removing the tips of cigars. It is unique and useful, and is quite an advertisement for George W. Rogers & Co.'s Old Stock whisky.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. There was much joy exhibited in the packing-house district at Chicago yesterday morning over the settlement of the arbitration dispute, and it was generally conceded that the Executive Board of the Amalgamated Meatcutters and Butchers Union would tender to President Donnelly the necessary approval of his action in framing the proposed terms, which allow of the strikers returning to work today at the same wages paid just previous to the strike, pending the selection and deliberation of the Board of Arbitration, which shall finally adjust all the grievances the strikers had. The settlement is regarded as a Union victory.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study: Agricultural, horticultural, chemical, biological, mathematical, physical, normal school, classical, mechanical engineering, electrical engineering, civil engineering, each of which extends over four years and leads to a Bachelor's degree. Graduate studies are also provided, leading to a Master's degree. Each course of study is organized under a separate faculty. The general faculty numbers nearly fifty Professors and Instructors. County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain in the college for more than one year, board. The laboratories and museums are large, well equipped, comprehensive and modern. The Legislature appropriated \$200,000 for college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation was 750. Specialists with the necessary number of assistants have charge of each department of natural science, summer schools are provided for pedagogy, engineering and instruction in science. The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing in any proper sense university work. The completion of the college home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath-rooms and room for physical culture. It is heated by steam and lighted by electricity. An opportunity is thus afforded to them to receive a high education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the state offers advantages for education of women at all comparable to those offered by the State College of Kentucky. For catalogues, method of obtaining appointments, information regarding courses of study and terms of admission apply to JAMES K. PATTERSON, Ph.D., LL.D., or to D. C. Frazier, Business Agent, Lexington, Ky. Fall term begins September 5th, 1904.

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I 'had 'em'—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder about the same length of a sapwood that had been sapling my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

Sometimes You Just
Get in on a Good Thing

That is better than missing it altogether. The selling out of a complete storeful of GOOD shoes is no ordinary occurrence. In our case it is simply a slaughter of prices to meet the requirements of a Trustee, who wishes to close out the stock QUICK. Original prices have been cut in half on some lines.

Choice Any Pair of Shoes in the House

\$2.50

This includes all the high-priced goods in both Men's and Women's Lines, some of which sold as high as \$5. One lot of Men's Shoes which were \$2.50 and \$3, now \$2; Men's \$1.50 Work Shoes \$1; a lot of Women's \$2.50 and \$3 Shoes reduced to \$1.50. The whole store yields up bargains; we mention but a handful.

The largest orchard in the world is in Missouri. It is the great Winans orchard, near Marshfield, in Webster county. There are 86,000 apple trees, 10,000 peach trees and 10,000 pear trees. The acreage covered is 1,240. It is estimated that the orchard is now worth \$408,000. There are today in the county 1,000,000 bearing trees.

Dr. Wells, a London physician, in 1818, in his published essay on dew, was the first to draw attention to the curious artificial production of ice in India. Shallow pits are dug, which are partially filled with perfectly dry straw; on the straw broad, flat pans containing water are exposed to the clear sky. The water, being a powerful radiant, sends off its heat abundantly into space.

Miss Hagood tells how she escaped an awful operation by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for four years with what the doctors called Salpingitis (inflammation of the fallopian tubes and ovaritis), which is a most distressing and painful ailment, affecting all the surrounding parts, undermining the constitution, and sapping the life forces. If you had seen me a year ago, before I began taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion, and general emaciated condition, and compared that person with me as I am today, robust, hearty and well, you would not wonder that I feel thankful to you and your wonderful medicine, which restored me to new life and health in five months, and saved me from an awful operation."—Miss IRENE HAGOOD, 1022 Sandwich St. Windsor, Ont.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

Ovaritis or inflammation of the ovaries or fallopian tubes which adjoin the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries, indicated by dull throbbing pain in the side, accompanied by heat and shooting pains, should claim your instant attention. It will not cure itself, and a hospital operation, with all its terrors, may easily result from neglect.

The great field of crystallized salt at Salton, Col., in the middle of the Colorado desert, is 264 feet below the level of the sea and is more than a thousand acres in extent. His shaving mug and brush, which were in the house at the time of the storm, have been found in a tree two miles away.
